Customer Service & Enrollment Master Script • Royal Blue Edition

Phase 1: Introduction, Reason for Call & Initial Consent

[Agent]: "Hello, my name is [Agent Name] with Insurance Alliance Group. This call is being recorded for quality and compliance purposes. We're reaching out in regards to the text message you responded to—there may have been a flag on your account, and we're making sure your health coverage is in good standing and helping you review your options through the marketplace. Do you know if your marketplace plan is still active?"

Customer Response: Discusses plan status or confirms status.

[Agent]: "Got it. Do I have your permission to discuss your marketplace subsidy options today? This only takes a few minutes."

Customer Response: Must answer clearly in the affirmative before moving forward.

Phase 2: Needs Discovery, Error Check & Household Assessment

[Agent]: "Fantastic. To investigate that potential flag, check for any errors on your file, make sure we find you the lowest possible monthly premium, and see if you qualify for cost-sharing reductions, I just have a few brief questions about your household:"

- **[Agent]:** "I have your zip code here at (ZIP). Is that correct?" *[Customer Response]*
- **[Agent]:** "Are you going to be claiming any children or a spouse on your taxes next year?" *[Customer Response]*
- **[Agent]:** "Perfect, so the subsidy you receive is based on your income for this year. What do you think you'll be making this year?" *[Customer Response / If unsure:]*
- **[Agent]:** "No problem! The state minimum for next year is \$16,000, which is about \$8 per hour. Do you think you'll be able to make that? If it ends up being less, that's fine, but if it's more, just let us know as soon as possible." *[Customer Response]*

Agent Action: Input data securely into enrollment platform while checking for any account discrepancies, data mismatches, or eligibility flags.

Phase 3: Account Verification & Plan Selection
